EDUCATION

Master of Business Analytics

University of Colombo School of Computing (2023 – June 2025)

Thesis: Mitigating Risk of Bank Loans using Machine Learning for Loan Approval and Loan Amount Prediction.

Bachelor of Science (Computer Science, Physics, Mathematics)

University of Ruhuna, Matara (2017 – 2020)

*Projects: Online shopping and Inventory management system for bookshop
: Portable Fingerprint Scanner*

Diploma in ICT

Esoft Metro Campus, Kiribathgoda (2015 – 2016)

EMPLOYMENT

Product Analyst (May 2025 – Present)

PICKME (Digital Mobility Solution Lanka PVT LTD)

Developed and maintained real-time dashboards to monitor supply-demand performance across food and marketplace platforms.

Analysed large operational datasets to identify supply gaps and improve order fulfilment efficiency.

Collaborated with cross-functional teams to optimize product performance using data-driven insights.

Conducted performance trend analysis to support strategic decision-making.

Executive Inventory (Oct 2023 – Feb 2025)

TEKKNOWLEDGE SHARED SERVICES PVT LTD, RAJAGIRIYA

Built Power BI dashboards providing real-time inventory and production insights to USA-based management. Analysed shipment and procurement data to identify delays and improve planning accuracy.

Automated reporting processes using Pivot Tables and data modeling techniques.

Delivered data-driven recommendations to optimize purchasing and stock control decisions

Procurement Merchandiser (1-Year Contract) (Jun 2022 – Sep 2023)

BRANDIX FAST FASHION, WELISARA

Managed the end-to-end raw material in-housing pipeline to meet strict production schedules, overseeing quality inspection and streamlining supplier communication for fabric issues.

Optimized purchasing efficiency by analysing stock movement trends and leveraging historical data to align supplier orders with actual requirements, significantly reducing inventory over-ordering.
